

## Troubleshooting and Tips

- Blinger™ is a styling tool. Just like a curling iron or straightener, it takes practice.
- Make sure you are using a thick enough piece of hair for the gems to stick. If you press down to bling and the gem is partially on your hair and partially on the Blinger™ handle, the gem will stick to the handle and not your hair.
- If you miss a gem, don't worry! You haven't wasted one. Simply use your fingers to place the gem where you want it.
- All gems are repositionable. If you need to move a gem, simply hold the gem carefully on the sides with your fingers, gently pull from the hair or accessory and reposition it where desired. It's that easy!
- Do not apply gems to wet hair or wet surfaces as it does not stick properly.
- To remove, easily comb out or peel off when you're done.
- If you have a partially used disc, all you need to do is add it to the Blinger™ (see previous directions for proper loading) and start with your gem to the left of the hole. When you press to bling, the disc will rotate right and will add the gem as desired.

# How to use your Blinger™

## LOAD:

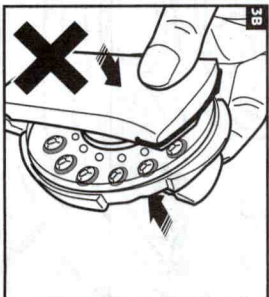

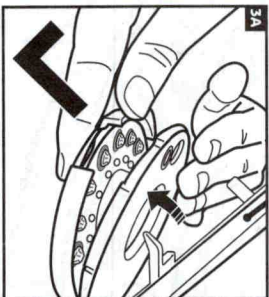

1. Release the stretchy band from around the bottom of the Blinger™ handle and place in notch located on the Blinger™ press. This allows the styling tool to be open and fully functional.

2. Press down on tab located in the front center of the carousel and pull up on press at the same time.

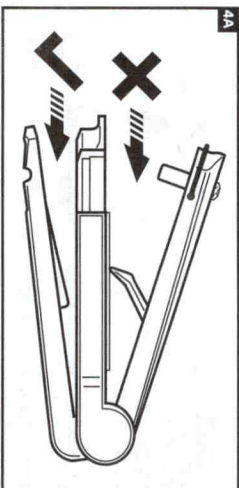

3. Insert disc, one at a time, with gems facing upward onto pegs inside the carousel. When properly lined up, your gems will be located in the center of each hole. Press clear cover down to close, snapping shut. Make sure you press down on clear cover only and not the press. If you push down and close using the press, you risk a gem being used unintentionally.

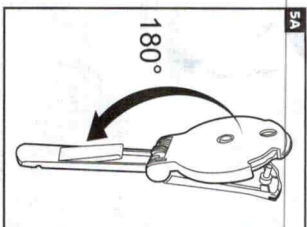

## CLICK:

### Bling 2 Ways!

1. Option 1: Insert a thick strand of hair or a piece of fabric/material in the opening between the bottom of the carousel and top of the handle.

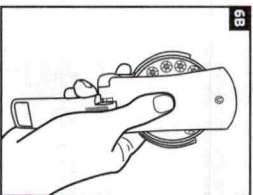

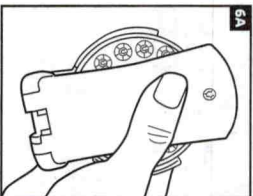

2. Option 2: Pull handle down to open the Blinger™ 180 degrees. Simply place the bottom of the carousel on the area you want to bling and firmly press to add the gem to hair, fashions or accessories. Caution: Opening the Blinger™ more than 180 degrees may cause the plastic to break.

## BLING:

1. Bling away as much as you desire!

Correct hand positions.
