### REMOVING THE TUTU

To remove the tutu from the doll, first gently unplug the cable connected to the dress from the body of the doll (see diagram above). This will deactivate the light-up function in the dress. When putting the dress back on the doll, ensure that you plug the cable back in to enable the light-up tutu function.

### MAKE BALLERINA SHUFFLE HER FEET

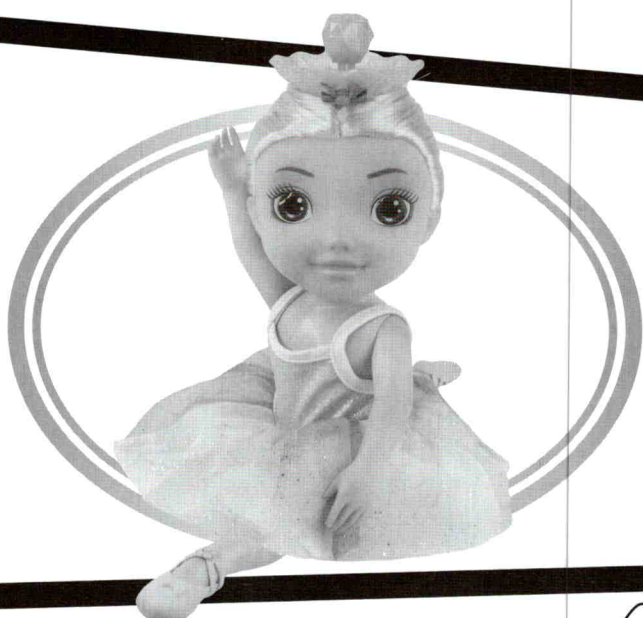

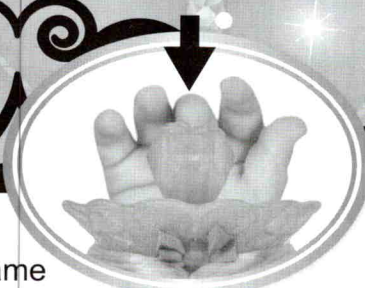

Stand Ballerina on a flat surface and turn the switch located on her back to "ON". Hold on to the top of Ballerina's tiara and pull it upward. Ballerina will begin to shuffle her feet. **Disclaimer:** Ballerina's legs are designed in a way so that she can kick and spin, one leg will naturally sit slightly longer than the other in order to maximize Ballerina's performance.

3+  
YEARS

### MAKE BALLERINA KICK

To make Ballerina Spin and Kick at the same time, place the switch on Ballerina's back to the "ON" position. Stand her upright on a flat surface. Press down on her tiara and she will kick her leg and twirl. If Ballerina's foot is slightly forward, she will kick forward. If Ballerina's foot is slightly back, she will kick backwards. Ballerina can also practice her ballet when the switch is in the "OFF" position too. Switch Ballerina "OFF" and press down on her tiara and she will kick forward and backward without playing music or spinning.

### MAKE BALLERINA DO THE SPLITS

Place the switch on Ballerina's back to the "OFF". To make Ballerina do the Splits, gently pull on her left leg to unlock it and place Ballerina in the Splits position.

### TROUBLESHOOTING

In order to comply with Toy and Safety Regulations, the legs on this doll are detachable. This is not a product fault and if the legs do become detached from the body, they can be easily locked back in by aligning the matching shapes on the legs and hip and snapping into place.
