**LET'S PLAY...**

I'm so glad you have adopted me and brought me home to make me your own! Here are a few simple instructions to help you care and play with me...

I love being cuddled and pet. The more you give me the happier I become! Here are some ways you can make me happy.

**MY NOSE**

Press my nose and I'll start to react to your gentle touch.

**TIME TO SLEEP**

Playing with you can tire me out! Sometimes I need a little nap. To put me to sleep, lay me down on my back or my side. I will start to snore and you will see me breathe.

**SCRATCH MY TUMMY**

I love to have my belly scratched while I'm in the lying position. Scratch and rub my belly to hear me make happy sounds!
**SPECIAL REQUESTS**

I love attention, and every so often I will cry out and ask for one of the following:
- Feeding
- Sleeping
- Petting Head
- Touch Nose

If you tend to me, I'll reward you with a secret phrase!

**ATTENTION MODE**

If you leave me in the sitting position or lying on my stomach, I will occasionally cry out for your attention.

If you don't do anything, I will eventually get tired and fall asleep.

**TROUBLESHOOTING**

For best performance and to avoid any potential malfunction, do not restrict movement of Puppy's:
- Eyes
- Head
- Stomach

Puppy's function does not match instructions:
- Always ensure switch is 'ON', not in the 'OFF' or 'TRY ME' position.
- Battery may be low. Low batteries may not allow full function. Replace all 4 batteries at once with fresh batteries as described in this manual, always ensuring they are placed in correct polarity.
- Puppy may be in sleep mode. In this case, turn 'OFF' and back to 'ON', alternatively, press Nose or Mouth button.

Petting Puppy does not yield animations or sounds:
- Make sure the switch is not in 'TRY ME' position.
- Make sure you're stroking the Head or Stomach area directly.
- Make sure you're not accidentally holding the Puppy's Head or Stomach.
