

Ref: 07532

3+

**Hurry, pass it on !!!  
If time runs out...  
You will get soaked.**

**SPLASH OUT !!!  
an exciting action  
game, avoid being  
drenched.**

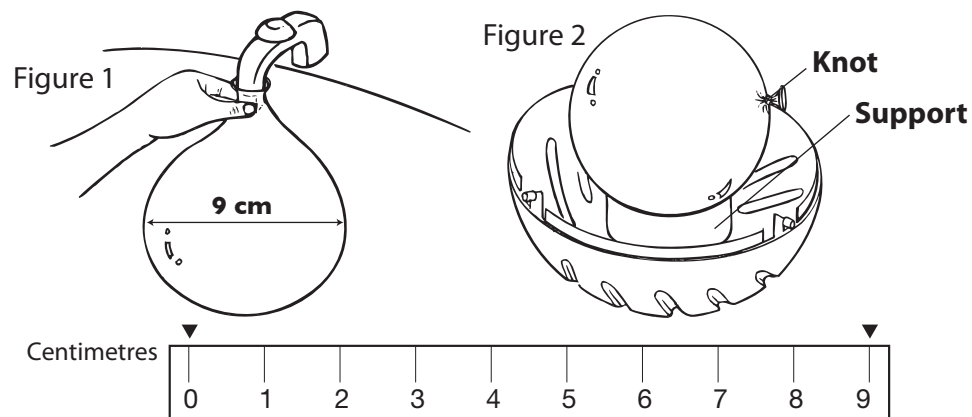

**Includes :**

- 12 balloons
- Splash Out
- Instruction sheet

**INSTRUCTIONS**

**How to fill the balloon**

1. Use **ONLY COLD WATER** or **AIR** and fill the balloon until it is approximately 9cm at its widest point (see figure 1.). To fill with cold water, stretch the balloon neck gently a few times (to minimise splitting) and fit securely over the tap nozzle and hold in place when filling. **NOTE:** Wide neck taps may burst the balloon. Visit YouTube or scan the QR code on this leaflet to watch the Splash Out Set Up video.
2. Tie a secure knot in the balloon neck.  
**NOTE:** Always use water balloon SIZE 4. Extra balloons can be purchased from [www.charcter-online.com](http://www.charcter-online.com) in the spare parts section.

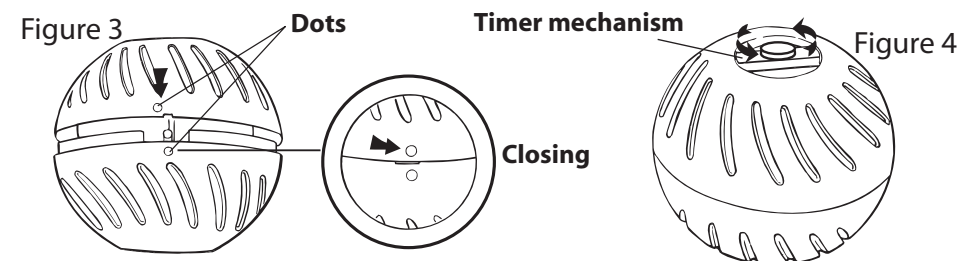

**How to place the balloon inside the ball**

1. Place the balloon sideways, with the knot facing the ring that divides both halves of the ball (see Figure 2).
2. Close the ball by placing the other half on top, aligning the dots as shown.
3. Lock both halves together by turning the upper half anti-clockwise (see Figure 3).

**How to set the timer**

1. Wind the timer mechanism **FULLY** by turning **GENTLY** in the direction shown (see Figure 4).
2. Do not use excessive force, and do not overwind.  
**NOTE :** If the timer mechanism is not fully wound, the balloon may not burst. The mechanism will only work if the ball is correctly closed and the two halves are locked perfectly into each other. Never attempt to make the timer run faster by trying to speed up the timer. Always let the timer run until it stops by itself. Attempting to force the winding knob to move faster can result in damage to the toy. Never try to wind the ball when the ball halves are separated.

**How to play**

1. Fill the balloon with cold water or air. Place the balloon inside the Splash Out.
2. Players form a circle and decide who will start the game. The first player then winds the ball timer and throws the ball to the next player.
3. Players continue throwing the ball to the next player, until time is up and the balloon bursts.
4. The player in whose hands the balloon bursts loses and is eliminated.
5. The game continues until only one player remains, the winner!

No battery is required.  
Adult supervision required.  
Children under eight years can choke or suffocate on un-inflated or broken balloons.  
Keep un-inflated balloons away from children.  
Discard broken balloons at once.
