SECRET MESSAGE DECODER WHEEL

What's up, Spy Ninjas? We have a new mission for you – decode messages sent in from Spy Ninjas everywhere, before Project Zorgo can figure them out!

This Spy Gadget is all you need to start sending and receiving coded messages that only other Spy Ninjas can read. Soon you'll start discovering ciphers everywhere.

Get cracking – and send us some coded messages!

TO DECIPHER A CODE:

First, find the key. You'll usually see it at the beginning of a row of symbols, in parentheses, like: (A = ♥)

Next, turn the inner blue dial so the A lines up with the ♥.

Now, without turning the blue dial again, read each symbol in the code and look for it on the inner blue dial.

See which letter – or number – lines up with the symbol on the outside red dials. Write down each answer one at a time.

TO WRITE YOUR OWN CODE:

First, create the key. Turn the inner blue dial so one letter lines up with one symbol. (You can only use letters to set the key, not numbers.)

Next, write the key in parentheses to begin your code, like: (X = 🔒)

Now, without turning the blue dial again, find each letter – or number – in your message on the outside red dials. See which symbol lines up with the letters or numbers on the inner blue dial. Write down each symbol one at a time to create your code.

RECYCLING OUR PRODUCTS

All our product and packaging is designed with easy and safe recycling in mind. For information on the National Recycling Strategy and the recycling logo on this pack or product please visit www.Recycle-More.co.uk – where you will find the answers to your UK recycling questions.
