# SPIN THE BOTTLE

ELECTRONIC

**The choice is yours!**  
Enforcing fair play is something we leave up to you! You have several options when faced with a player who is reluctant to obey the command. We suggest you decide on a forfeit before you play that a player must perform if they refuse to obey! This could be anything, from making a cup of tea to fetching food or even cleaning the toilet!

## How to Play

Switch the button underneath from **Try Me Mode to On** (Fig 1). All players should sit in a circle around the bottle. To start the game, simply spin the bottle and see who it points to. **The LED button (Fig 2) on the front will light up (red for dare and blue for truth)** and the bottle will randomly select a command or question which you must obey or forever hang your head in shame!

## Introduction

Welcome to the Electronic Spin the bottle game! The fast-moving party game for ages 6 to 106! The Electronic Spin the bottle party game takes an all-time favourite game into the 21st century, with over 170 programmed truths and dares!

## Modes Of Play

If you want to make up your own commands and questions, and play only using the spinning sound double tap the **LED button** and you have entered **Silent Mode**. To return to **Normal Mode** tap the **LED button** once.
